

# The Winecard

## Respect for our earth...

It is basically what our wine list reflects, respect for the farmer, respect for the terroir and not least respect for our planet.

These are the three clues the wine list is built on.

We have take a stand by dealing exclusively with European wine, despite several skilled and sustainable producers in the overseas countries.

This position is taken into account the logistical burden on the environment by picking up goods on the other side of the globe.

The last pages of the winecard contains our 'Cellar card' with more exclusive wine.

Our organic and biodynamic wine selections are marked on the map with the following symbols:

= Ecological

= Biodynamic

All the best from

# ”Cellar card – less is more”

Our wine cellar stores unique bottles from exciting wineries around Europe. Bottles that are not many and which have a special place in the range of wines from the individual producers. Some with age, others ‘fresh from the barrel’, but all exciting to taste.
